#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 7, 9-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Horie (US 6,671,249).

Horie disclose an optical recording medium, and data recording method for overwriting data which consists of checking the size of new data and searching the multi-session disk for a larger size ("variable-length data", col. 11, lines 25-27) and overwriting the session with new data (col. 6, lines 8-23 and col. 15, lines 1-10) and updating temporary management information for tracks recorded (Col. 11, lines 17-27) and Col. 14, lines 22-32).

With respect to claim 9, see col. 11, lines 16-27.

***Allowable Subject Matter***

Claims 2-6, 8, 12-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
